GOOD NEWS FOR EVERY ONE!

Knowledge is power. If you desire to preserve your health, a knowledge of the laws for its preservation is essential. If you are ill, and have sought in vain for renewed health, what is the reason? Simply this, a want information on the subject. The civilisation of the present day renders some aid to nature in the preservation and restoration of health indispensably necessary; and the only question is, whence is the required help to be obtained? Undoubtedly, by using

Kaye's Worsdell's Vegetable Restorative Pills.

For the last thirty years the truth has been gaining ground that to purify the blood is the simplest and most natural way of restoring and maintaining health; and the great and distinguishing feature of these celebrated pills is, that they speedily eradicate all disease from the body, *by purifying the blood*; thus good health is at once secured, and all may ensure a sound constitution and complete freedom from pain and disease.

The pamphlet enclosed with each box of the pills gives most interesting particulars of many hundreds of cases of cure, together with instructions for the use of the medicine.

DR. J. COLLIS BROWNE'S

Chlorodyne.

CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.

All pain, vomiting and distress ceases in a few minutes after taking a dose of that wonderful Sedative Anodyne and Antispasmodic remedy discovered by Dr J Collis Browne M.R.C.S.L. (ex-Army Med. Staff,) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury-square, London (Pharmaceutical Chemist). The medical testimony of civil, hospital, military and naval practitioners pronounces it invaluable It relieves pain of any kind, soothes the restlessness of fever, and imparts the most refreshing sleep, without producing or leaving any of the unpleasant effects of opium.

As a proof of its efficacy, a few extracts from numerous Testimonials by Physicians and Surgeons are given:

From W. Vesalius Pettigrew, M D., Hon. F.R.C.S., England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine: "I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am most perfectly satisfied with the results"

Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."

From C. V Ridout, Esq., Surgeon, Egham: "As an astringent in severe Diarrhœa and an antispasmodic in Colic and Cramps in the Abdomen, the relief is instantaneous."

Extracts from the General Board of Health, London, as to its efficacy in Cholera.

1st Stage of Premonitory—In this stage the remedy acts as a charm, one dose generally sufficient.

2nd Stage, or that of Vomiting and Purging—In this stage the remedy possesses great power, more than any other we are acquainted with, two or three doses being sufficient.

3rd Stage, or Collapse—In all cases restoring the pulse. So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of using it in all cases.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery." To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

Caution.—In consequence of the extraordinary efficacy of this remedy, several unprincipled parties have been induced to vend imitations. Never be tempted to buy Chlorodyne, except in sealed bottles, having the Government stamp, with the words "Dr J. Collis Browne's Chlorodyne" engraved thereon, A sheet full of medical testimonials accompanies each bottle. Sole manufacturer, J T. Davenport 33 Great Russell street, Bloomsbury, London. CROSSE & BLACKWELL,

PURVEYORS TO THE QUEEN,

SOHO SQUARE, LONDON

Crosse & Blackwell's various first class Manufactures are obtainable from every dealer in the Colony. Purchasers should insist on having C. & B.'s goods when they ask for them, as it is not at all unusual for inferior preparations to be substituted. Their Pickles are all prepared in Pure Malt Vinegar, and are precisely similar in quality to those supplied by them for use at

Her Majesty's Table.

C. & B. invite attention to the following—Pickles, Tart Fruits, Sauces of all kinds, Jams, Potted Meats, Durham Mustard, Orange Marmalade, Essence of Coffee, Calf's Foot, and other Table Jellies, Pure Mushroom Catsup, and numerous other articles, all of which are of the highest quality, and are prepared with the most complete attention to Purity and Wholesomeness. Their Salad Oil is the finest imported.

C. & B. are Agents for LEA & PERRINS' CELEBRATED WORCESTERSHIRE SAUCE, Carstairs' Sir Robert Peel's Sauce, M. Soyer's Sauces, Relish and Aromatic Mustard, Payne's Royal Osborne Sauce, and Captain Whites' Oriental Pickle, Curry Powder and Paste, and Mulligatawny Paste. fe25 wy 1y

Steam  Packet

Company's Agency,

For British Columbia & Vancouver Island.

OFFICE, MACDONALD & CO., BANKERS,

Yates Street.

The attention of shippers and passengers is particularly directed to the superior facilities the Royal Mail Steam Packet Company's Line affords for the speedy conveyance of Treasure, Goods and Passengers to and from England to British Columbia and Vancouver Island, in connection with the Pacific Mail Steamship Company's Vessels and the Panama Railroad.

The superiority of the accommodation and entertainment on board the Royal Mail Steamers, together with the time occupied on the passage between England and Aspinwall direct being so much shorter than by any other route, and the moderate rate of passage money, render this Company's steamers the CHEAPEST AND MOST EXPEDITIOUS MEANS OF TRANSIT, for passengers or for the forwarding of Goods and Treasure from Aspinwall to Europe.

Under an arrangement with the PACIFIC MAIL STEAMSHIP CO., Specie and Bullion can be conveyed to London and Havre in France

Further information on the subject of Freight and Passage Money will be furnished by the undersigned.

THE NEW GOVERNOR.

The *Columbian* in its last issue speculates as to who the new Governor of British Columbia shall be, and after demolishing Governor Douglas, concludes with an eulogy of its candidate for the governorship, Col. Moody. It is very evident that the delegate *par excellence*, Mr. Cameron, has not accomplished all that his immediate constituents desire, else the *Columbian* would not be under such fear of the continuance of Gov. Douglas in power. In fact we are assured that in Mr. Cameron's instructions there was a latitude granted him to accept Gov. Douglas as the resident Governor of British Columbia, in case no other terms could be made; and it looks as if the latter rule had obtained. The *Columbian* says, that "un- could happen to us (New Westminster, not British Columbia) is, that Gov. Douglas should be foisted upon us for the balance of his term, or for a new term of six years." We are not a very ardent admirer of Gov. Douglas, but looking to the general interests of both colonies, we believe that, from what little is known of Gov. Douglas' views, that he would prove a better Governor than Col. Moody. We can scarcely believe that Gov. Douglas would accept the governorship of the sister colony, separate and apart from Vancouver Island. But if he should, our impression is that it would be a general public benefit rather than an injury. We know nothing that deserves more to be deprecated than two Governors for these colonies. But if in the stupidity of Downing street such a misfortune befals the country, it would be much better that Gov. Douglas with all his faults should be Governor of British Columbia, than that a Governor should be appointed there, narrow minded enough to take up a sectional policy, and pander to paltry local interests, rather than consult the great interests of the British Possessions of the Pacific. There are men who would do anything for a governorship. Their personal elevation would outweigh every consideration of the probable evils that would ensue to the country forming their government. Against the elevation of any such people to the governorship of British Columbia we enter our protest. We pronounce them unfit for the position. All the merit doubtless that the *Columbian* can see in Col. Moody is, that he would be purely sectional, and direct his efforts to widen the breach between these colonies, rather than unite them into one government. We believe that great blame attaches to Gov. Douglas for not using his power and influence to weld these provinces into one. One of the greatest defects of his administration—one that will be the longest felt—is the non-consolidation of his governments into one province. Well may the officials of Downing street and the *Times* characterise the perpetuation of two distinct and separate governments for 1500 persons as "an absurdity." Any one with broad and correct views would hold the same opinion. Cameron and M'Clure, by taking up a purely sectional policy in England have done both provinces an injury. Not an irreparable one we hope; for if Gov. Douglas be removed to British Columbia, we may hope that he will shape his policy to consolidate our territory. There is at least something better to hope from a man who must feel an interest in both colonies, than from one whose official service has been confined to the statesmanlike policy that obtains at a steamboat landing.

INDIAN OUTRAGES.

Within one week we have had to record the perpetration of two Indian outrages, by which three persons have lost their lives, and a fourth seriously, if not mortally wounded. This has occurred within a distance of 30 miles of this city, among the islands of the Haro Archipelago, and within the jurisdiction of our Government. Such deeds, though not of very common occurrence, are calculated to retard the settlement of unoccupied parts of our coast, and the unexplained dilatoriness of the Government in not ferreting out and bringing the savage perpetrators of these murders to speedy and exemplary punishment, only heightens the difficulties in the way of the settler. It is incomprehensible how the Government can allow day by day to pass, without sending one of the gunboats to arrest the murderers. The Forward and Grappler might have been despatched on such a service; and, before the blood of their victims was dry; whilst their hands were reeking with human gore, and gloating over their fiendish deeds, the murderers might have been lodged in our prison. Prompt punishment, as well as certainty of punishment, should be the rule in dealing with Indian outrages, and is the only way in which to prevent them from robbing and murdering the distant but unprotected settler. The delay, consequently, in not despatching a sufficient force to discover the perpetrators of the bloody deeds that have lately recorded, appears inexcusable.

PIMPLES ON THE FACE.—HOW often we hear the remark, "I would give worlds if these pimples on my face were gone." Now, friend, you are not all called upon to give worlds, but if you will give a dollar those pimples can every one be obliterated; they proceed from a humor in the blood, that Scovill's Blood and Liver Syrup will drive out, and your skin will become like alabaster. Surely you cannot doubt this, when the worst cases of Scrofula and Erysipelas are cured by the use of from one to three bottles. We believe in the Syrup, and wish others to join us in the belief. THE BRITISH COLONIST

Monday Morning, April 13, 1863.

AUCTION SALES TO-DAY.

J. A. McCREA will sell at 11 o'clock A. M., at salesroom, on a liberal credit, Groceries and Provisions, together with Crockery, etc.

GAROTTERS AGAIN.—On Saturday evening last, shortly after ten o'clock, a gentleman who had been spending the evening with some friends residing in the suburbs, started on his way into town. He had not proceeded more than fifty yards, when he perceived two men crouching down against a fence alongside of the footpath, He immediately accosted them and asked what they wanted? They first said that they had lost their way, and then added that they "must have some money to get a night's lodging." The gentleman, with much presence of mind, immediately said that he would show them a place where they could sleep, and turned back. A moment sufficed to bring him to the house he had just left, when he called a friend to his assistance. The supposed garotters were then asked what they wanted? and in answer they told an incoherent story about trying to find some party for whom they had been digging potatoes, and who owed them some money. The two gentlemen courteously offered to show them the way, but they declined, saying that "they did'nt want to go to the lock-up." This incident is sufficiently alarming to put persons who have to traverse the outskirts of the town after dark upon their guard. The gentleman who met with this adventure feels convinced from the action of the men when first observed, that they were lying in wait for him, they no doubt having acquired a knowledge of his being a frequent visitor at the house of his friend.

SUDDEN DEATH.—A man named Richard McCahil died rather unexpectedly yesterday morning at the Island Hotel, from the effects, as generally believed, of drinking to excess. For some time previous to his decease he had been unwell, and for several days was treated by Dr. Simonton as laboring under *delirium tremens* and had partially recovered but against the Doctor's advice he took some pills which he had brought from San Francisco, and from the effects of which he subsequently suffered very much, and had not sufficient strength of constitution to get over the attack with which he was seized. Before his death he had several fits of convulsions. He died at an early hour yesterday morning, Dr. Simonton being in attendence at the time. Since deceased came to Victoria from California a short time since, where he is said to have a brother residing, he is reported to have spent $1250, and at the time of his death was not possessed of any money.

COUNTRY ROADS.—It is a matter for much gratification to be able to mention the numerous improvements that have been made in the rural districts during the last few months in respect to the condition of the main roads. Nearly all of the bad places have received attention, and very little difficulty will be experienced by the farmers in Victoria district during next winter in coming to and fro. The Cadboro Bay Road has been graded and ditched nearly the whole way from Fort street to the property of John Todd, Esq., the bad places being metalled, and the greater part of the distance made with gravel. A portion of this road has been diverted very judiciously, and now passes along a hill, where drainage can be effected to much greater advantage.

THE ROBERT LOWE.—This fine steamship, under the command of Captain Congalton, arrived at Honolulu in twelve days and a half from San Francisco, on her voyage to Kongkong. Several passengers joined her at Honolulu, and a good deal of freight was put on board. The Government of the Islands, alive to the importance of having them made the calling place of the new line of steamers, have granted special privileges to the latter—such as no harbor dues and giving fresh water without any charge whatever.

ALL ABSENT.—The wharves yesterday exhibited an unusually bare appearance, owing to the absence of nearly all the colonial coasters, and to not one of the small craft constantly plying between this port and Puget Sound being in the harbour. With the exception of ocean-going vessels and steamers, there were only in port yesterday the schooners Mink, Matilda and Spring Vale (water boat). The former is laid up, and the two latter were empty.

GOLD ON THE WAY.—We are informed, on good authority, that a gentleman well known in this city, and who stopped here during the winter, is at present on the way down from Cariboo with a large amount in gold, the principal portion of it being the yield of the Black Jack Tunnel since last fall. Doubtless the news will gladden the hearts of many of our merchants and traders, as the greater part of it will be sure to find its way into their hands soon after its arrival.

DETAINED.—The bark Helvetia, bound from Utsalady, W. T., Hongkong, having touched at Esquimalt on Saturday, has been detained, in consequence of the arrest of Captain Mencke on a writ of *capias*. The alleged grounds for the detention is the delivery of goods in mistake, two casks having been sent respectively to the wrong consignees.

HORSE STEALING.—We learn that the horse thieves are still carrying on their practices with impunity, several persons having lost valuable animals during the past few days. Unless some of the parties engaged in this nefarious trade are brought to justice and severely punished, no one will in future trust the farmers with the care of their animals.

ARRIVED.—The barkentine Jenny Ford, Capt. McCarty, arrived yesterday morning from Honolulu, having been only twenty-one days on the passage. Capt. McCarty only sighted one vessel, a bark, in the Straits on Saturday, but for what port she was bound the captain could not tell. Light westerly winds prevailed since the Jenny Ford left Honolulu.

NAVAL.—H. M. S. Hecate, Capt. Richards, arrived at Honolulu on the 17th ult., in 26 days from Acapulco. Our citizens will be pleased to hear that the gallant officers and men belonging to the ship were reported to be all in good health. The Hecate on leaving Honolulu would proceed south, and afterwards go to England *via* the Cape of Good Hope.

LANCASHIRE RELIEF FUND.—Above $3000 had been contributed in Honolulu for this fund up to the latest dates. This sum includes the following liberal subscriptions from residents of the place, viz.: Janion, Green & Rhodes, $250; Dr. Wood, $500; Robinson & Co., $150.

THE DEATH AT LILLOOET LAKE.—No inquest had been held on the body of Wm. McGreevy, who died at Lillooet Lake, up to the latest accounts. This shows the necessity or a magistrate on the portages, as represented in the report of the Douglas grand jury last year.

THE STEAMSHIP FUSI YAMA.—This vessel which may shortly be expected here from London is one of the new line of steamers to run between San Francisco and China, stopping on the way at the Sandwich Islands.

☞ It is surmised that H. M. gunboat Forward will be despatched to the scene of the late Indian massacres this morning. She will, probably get there in time to hear of a few more massacres.

BRITISH COLUMBIA.—The steamer Enterprise arrived on Saturday night from New Westminster. We have letters by her from Williams Creek per Express to the 23d of March. The reports of the mines are exceedingly favorable. The claims that are being worked are doing very well, turning out gold to a greater extent than at any previous period in the history of Cariboo. Wages for men are high and all who have gone in, find employment readily. A letter from a working man to his brother here and not intended for publication says:

"I often thought that you missed it, last fall, in going below. One thing I can say, that there is as great prospects as ever there were in Cariboo for a working man, or for one to try his luck in prospecting for himself for gold. For my part I am not sorry for coming to Cariboo, for last Saturday I made $24 in the day, laying the foundation of a house, and only worked six and a half hours."

This letter is the advice of one whom we know well to be a reliable and trustworthy man, and who would not advise his friends to go up, unless there was a prospect of their doing well. He has been all winter on the Creek, working as a miner generally.

Crowds were going up the wagon road, but the numbers are far short of those who went up at the same period last year. There was a slight advance in the price of provisions at Richfield, but not greater than might be expected.

THE DRAMA.—An amateur company will perform at the Victoria Theatre this evening, for the benefit of the Royal Hospital. The pieces selected for representation are excellent, and just such as will suit the talents of the gentlemen who are to appear in them. Quite a feature of the night's entertainment will be Mr. Digby Palmer's solo on the splendid new instrument imported by the enterprising firm of Gentile & Co. This will be a treat indeed to the lovers of music. Seats should be secured at once, or many will be disappointed by leaving it to the last moment.

FROM SALT SPRING ISLAND.—The schooner Carolena, Captain Jones, arrived yesterday morning from Salt Spring Island, with about 30 tons of stone, intended for use in the erection of Messrs. Dickson, Campbell & Co.'s new building on Store street.

AN IMPROVEMENT.—Yesterday, a policeman, in uniform, was on duty in Beacon Hill Park, and another was detailed to patrol the main thoroughfares of the town. A marked change for the better was observable in consequence, and no disorder that we are aware of took place.

ARRIVED AT HONOLULU.—The bark Cambridge arrived at Honolulu on the 6th March from San Francisco, making the passage in 12 days. It is the intention of her owners to make her a regular trader between those two ports.

THE MAIL.—The mail steamer will be due here this evening, her day of sailing being the 7th inst., *via* Portland.

Sandwich Islands.

By the bark Jenny Ford we have Honolulu papers to 21st March:

At noon yesterday the telegraph announced the Annie Laurie to leeward; a few hours later it was perceived to be the Florence, with smoke issuing from her; but as whales of a small kind are numerous about these islands just now, it was supposed she had taken one and was trying him out. When abreast of the harbor, however, about 6 P. M., the startling cry was heard from Whitney's look-out "that the Florence was on fire," which intelligence proved too true; all was hurry, bustle and excitement then for a short time. The Pele immediately got up steam to tow her in, and the engines and hook and ladder company hastened to the end of the Esplanade to offer their best efforts as soon as she could be brought into the harbor. This operation was performed about 8 P.M., and at 9, an hour later, the fire was completely extinguished. It is impossible to say just now how the fire originated, or what the extent of damage in the hold may be; but, from a casual glance we took down the three hatches this morning, it is seen that the flames swept fore and aft, but the *debris* of burnt and saturated provisions and ship stores, filling every place, prevents any calculation of the injury.—*Polynesian.*

HAWAIIAN COTTON.—Private letters received in this city from New York per last mail, speaking of samples of Sea Island cotton raised here from seed imported from Beaufort, South Carolina, say that it has been examined by Mr. Grinnell, Capt. Nye, and others, and pronounced by them to be the finest staple they have ever met with, and to be fully worth one dollar per pound. The cotton in question was raised by Dr. Ford, of this city.

We learn from the *Haku o ka Pakipika* that an Archæological Society has been formed in Honolulu, of which the Hon. and Rev. L. Andrews is President; the Rev. H. Parker, Vice President; Mr. S. N. Haleole, Secretary, and Mr. J. S. Low, Treasurer; and that the Society numbers seventeen members.

Letters were received from the King last Saturday, that he was quite unwell at Kailua, requiring the attendance of a physician. At his request the Queen went up to Hawaii in the steamer, accompanied by the Governor of Oahu and the King's private secretary. It is reported that His Majesty has had a stroke of paralysis, but we trust the rumor may be incorrect, and his indisposition prove to be nothing serious.

South America.

The steamer Callao arrived at Panama on the 8th of March. By her we have the following dates:

There is nothing of much interest to report from Chile by the present mail. In the departments of Government, nothing has been transacted during the past fortnight.

The subject of religious toleration is occupying some attention, being brought into notice by articles for and against, in the different newspapers. Although in Chile, at present, every sect is allowed to worship according to its own creed, yet they are quite at the mercy of the authorities. It is to be hoped that the advanced civilization of Chile and of all South American Republics will not merely accord religious toleration as a privilege, but establish it as a right.

The very warm weather at Santiago has sent nearly one half the population to places with a more moderate temperature; hence from the capital there is nothing special of news to report.

In Valparaiso markets, more animation and better feeling than hitherto this year has been the feature of the past fortnight. The wheat harvest of the country will be very abundant and shipments on a large scale will be made this year from the ports.

PERU.

The one subject of attention is the new Currency Law just promulgated. The principal point in it is, that the present Bolivian coin is in future to represent only 80 cents as compared with the new coin, and that gold ounces are in future to pass for $20 25 of the base coin, instead of at their nominal value as heretofore. This has given great dissatisfaction to the merchants, who have held an indignation meeting and protested against it.

Various Peruvian vessels that were employed in the transportation of emigrants from Polynesia have been detained by the French authorities, under the impression that the captains of those vessels were taking their passengers from places belonging to the empire, and that they availed themselves of improper means to seduce those simple people on board their ships. Almost all the vessels detained have been released on the condition that they abandon this unlawful trade.

CONSECRATION OF TWO AFRICAN BISHOPS.—The ceremony of consecrating the Rev. William George Tozer, formerly of St. John's College, Oxford, and Vicar of Burgh with Winthorpe, Lincolnshire, who has been appointed to the bishopric of the Central African Mission, and the Rev. Edward Twells, formerly of St. Peter's College, Cambridge, and incumbent of St. John's, Hammersmith, took place in Westminster Abbey, in presence of a large congregation.

Mining News.

The news from the mines continues to be as exciting as ever. Dates from Cariboo are to March 24th. With the exception of several parties *en route* for Peace River, nearly the whole of the miners go to Cariboo. Stekin River, which attracted quite a rush last spring, is scarcely mentioned now. There are, however, some fifty odd miners who have spent the winter there, but from whom no late accounts have been received. During the course of the spring and summer, we shall hear more particularly about the gold bearing qualities of the colony of Stekin. There is little doubt, however, but that it will yet prove a rich gold country, though it will take time to test it, and make its auriferous deposits available. Cariboo still attracts all who can find any means to go there, and will continue to do so. Late accounts, (said to be perfectly reliable), report that Diller & Co., on Williams Creek, are taking out from 200 to 700 ounces of gold per day. Other companies, such as the Canadian, were likewise yielding enormously. The miners were arriving at Richfield, Williams Creek, from Victoria, in great numbers, and along the road going thither were hundreds more. A great exodus of the winter population of Victoria has occurred—all left for the mines. Flour at Richfield was $1 per lb.; at Forks of Quesnelle, fifty cents. There was a good deal of snow on the upper part of the route to the mines, but it was a well-beaten track. The Government intend to commence at once to make a trail from Alexandria through into the mines. The work will be under the charge of the Royal Engineers. It is much to be regretted that Government has failed to accept the proposal of the Chamber of Commerce to put on a gold escort, inasmuch as large quantities of gold lie in Cariboo without any facilities to bring it down. Consequently, an unusual tightness in the money market is likely to continue here till fall.

Central America.

The steamer Salvador, from Central America, arrived at Panama on the 6th March

By this arrival we have itelligence of the first engagement between the Guatemala and Salvador forces, in which the former were badly beaten and several of their leading officers killed.

Central American correspondence of the *Star and Herald* furnishes the particulars of the fight.

SAN SALVADOR, Feb. 23, 1863.

At the date of my last advices from here this Republic was in a state of great excitement, owing to the threatened invasion of Carrera with a large body of his Guatemala forces and several divisions. A body of Salvadorean troops, accompanied by two parks of artillery, had been concentrating on the frontier to impede the invaders. So soon as it became known that Carrera had left Guatemala to place himself in command, and that his troops, in two divisions, were moving to the frontier, General Barrios, with his staff, quitted his capital and took the supreme command of the army. He found them in an admirable position at Quotepeque, sixteen leagues from hence, and four leagues from Santana; here, as would appear, he determined to await the enemy.

On the 18th, Carrera crossed the frontier. All attempts at mediation had failed; war became inevitable; an armed force had invaded a peaceful territory; the issue was awaited with breathless anxiety. Martial law was formally proclaimed on the 20th. A complete stagnation in business followed; every store was closed; a general movement of all valuables at every outlet from the town took place; strong barricades were thrown up, and all denoted a state of siege. Meanwhile, Carrera continued his onward march; entered Santana, which he found deserted, and unmolested, there matured his plans of attack. These he attempted to carry out on Monday, the 22d. He made a bold attempt to carry the entrenchments; left over one hundred victims therein, and was fairly repulsed. Yesterday (24th), at 8, a. m., he renewed the onslaught. It must have been a hardly contested strugle, lasting until 4 o'clock, p. m., when the Gautemalians were fairly beaten, and retired in great disorder, leaving four guns, quantities of arms and munitions of war, and all their killed and wounded on the field. Among the former, it is said, is Gen. Saldana, Carrera's chief.

Generals Gonzales and Bracomonte, with a strong division, were, at the departure of the courier, in hot pursuit of the fugitives, who arrived at half-past 7 A. M., since which all is rejoicing, the band parading the town, and the booming of cannon announcing the glorious triumph; and all are full of expectation and hope that this decisive engagement will terminate the struggle.

An election for Presidential Electors takes place some day of this week, throughout the republic.

Everything is very quiet here and it is not supposed that there will be any opposition to the Government candidate, Senor Jimeneze of Cartago, for the Presidency.

The coffee crop it is feared will not exceed 70,000 quintals; the price is higher than ever, $13 in San Jose, and $15 in Punta Arenas has been paid for many considerable parcels. The amount of tonnage in the port is very much in excess of the crop. Considerable shipments go forward by the steamers.

GOLD MINING IN NEW ZEALAND.—At no time before were the reports from New Zealand about the gold mines so favorable as by the latest accounts. Fortunes are being made with almost fabulous rapidity, and the rush thither is unprecedented. According to one local journal, the province of Otago was increasing its population by thousands every week. Otago occupies the southern part of the larger island (New Munster), and is situated nearly under the 45th parallel of south latitude. The port of Dunedin was overflowing with passengers from Australia. Within one week four ships had arrived at Port Chalmers, bringing 3,200 passengers. At the Dunstan diggings, 3,133 ounces of gold were left with the police for transmission, within five days. Yields of three or four ounces of yellow dust per day, per laborer, was thought of little account, and several were reported to be taking it out by the pound.

Among the articles reported as scarce are *bank notes*, wherewith to purchase the precious metal. All kinds of produce had advanced to extravagant prices, and rowdyism was becoming disgustingly prevalent.

The whole population of New Zealand, as ascertained by a census, before the gold excitement broke out, was 106,000, of which about 50 per cent. was natives. But with this discovery it is probable that the foreign element has already doubled, and will continue to advance at an unusually rapid rate for years to come. The climate and soil are for the most part among the best on the globe, and the situation of the islands is well adapted to European constitutions. One of these days another nation will be born there.

HOW GOSSIPS ARE MADE.—Gossips, male and female, do not commence at all by being malicious. This is the way it begins:—Their minds being uninformed and uncultivated, and their own lives meagre and barren of interest, they naturally fall to watching those around them, to see if they cannot exert a little pleasurable excitement from the contemplation of their neighbors. The 'taste grows by what it feeds upon;' and, lacking the elements of the marvellous, at any time, what is easier than for them to supply it, and make the story a round one, at any sacrifice? In proportion as the mind is cultivated, things, not persons, engage its attention. Had women as many resources as men, female gossips would be scarce in proportion. Mothers, not only for this, but for obvious reasons, should early cultivate a taste for reading in their daughters. A young girl then has a resource against the crowding rust of an unemployed hour, not only in youth, but in her old age if surrounded by domestic ties.

THINGS WORTH FORGETTING.—It is almost frightful, and altogether humiliating, to think how much there is in the common ongoing of domestic and social life which deserves nothing but to be instantly and forever forgotten. Yet it is equally amazing how large a class seem to have no other business but to repeat and perpetuate those very things. That is the vocation of gossips, an order of society that perpetuates more mischief than all the combined plagues of Egypt together. You may have noticed how many speeches there are which become mischievous only by being heard a second time; and what a large number that the fatal repetition shall be heard. Blessed is the man or woman that can let drop all the bur and thistles instead of picking them up and hanging them on the next passenger. Would we only let the vexing and malicious saying die, how the lacerated and scandal-ridden world would get healed and tranquilized.

MINISTERS CAUGHT NAPPING.—Mr. Kinglake tells us in his "Invasion of the Crimea," that the English despatch instructing Lord Raglan to invade the Crimea was so worded that he had no choice but to obey it, in despite of his own judgment. The history of the assent of the English Cabinet to the despatch directing the invasion is curious:—"The Duke of Newcastle (Mr. Kinglake writes) took the despatch to Richmond, for there was to be a meeting of the members of the Cabinet at Pembroke Lodge, and he intended to make this the occasion for submitting the proposed instructions to the judgment of his colleagues. It was evening, a summer evening, and all the members of the Cabinet were present when the Duke took out the draught of his proposed despatch and began to read it. Then there occurred an incident very trifling in itself, but yet so momentous in its consequences that if it had happened in old times, it would have been attributed to the direct intervention of the immortal gods. * * Before the reading of the paper had long continued, all the members of the Cabinet, except a small minority, were overcome with sleep. For a moment, the noise of a tumbling chair disturbed the repose of the Government; but presently the Duke of Newcastle resumed the reading of his draught, and then again the fated sleep descended upon the eyelids of the ministers. Later in the evening, and in another room, the Duke of Newcastle made another and a last effort to win attention to the draught, but again a blissful rest (not this time actual sleep) interposed between ministers and cares of state, and all, even those who from the first had remained awake, were in a quiet assenting frame of mind. Upon the whole, the dispatch, though it bristled with sentences tending to provoke objection, received from the Cabinet the kind of approval which is often awarded to an objectionable sermon. Not a letter of it was altered; and it will be seen by and by that the cogency in the wording of the dispatch, which could hardly have failed to provoke objection from an awakened Cabinet, was the very cause which governed events."

THE DISRAELIS.—After dwelling and trading in Venice for several generations, the Disraelis sent one of their family to this country. The name of this individual was Benjamin; he became an English denizen in 1748, married a beautiful woman, and devoted himself to trade with success, so that he left his only son Isaac a comfortable, but by no means large fortune. His grandson says of him:—"He made his fortune in the mid way of life." He did not die until he had entered on his 90th year, but up to the extreme of his old age he enjoyed existence. The only important source of unhappiness his life contained was the embittered temper of his wife, whose anguish at the contumely heaped by society upon every member of the Hebrew nation so affected her mind, that she became the victim of a morbid hatred towards her unfortunate race. With Isaac Disraeli, the old merchant's son, the public are well acquainted. For a considerable portion of his life he resided in an imposing mansion in Buckinghamshire, Bradenham House, and there he died in the 82nd year of his age, on the 19th of July, 1848. Isaac had four children, three sons and a daugher; Benjamin, the eldest; the second son is a clerk in the Registry Office in Chancery; the youngest son is a Buckinghamshire farmer; Miss Disraeli died unmarried, while travelling with her brother Benjamin in the East.

MEN IN THE STOCKS.—On Saturday and Wednesday last, the novel sight of men in "durance vile," might have been seen in the Market-place of the enlightened borough of Andover. The unfortonate or fortunate individuals, as the case may be, were worshippers of Bacchus, and having courted the rosy god too strongly, were seized on by those enemies to drunkarks, the P. C., and compelled to put in an appearance before the Borough Magistrates, when, the case being proved to their satisfaction, the usual fine was inflicted, with a certain time allowed for the payment; but the money not being forthcoming at the stipulated period, an "investment in stocks" became necessary, much to the amusement of the fair sex, and small boys of Andover, crowds of whom congregated during the day to look on the victims of misplaced confidence in Sir John Barleycorn The dabblers in stocks appeared not to appreciate their disgraceful position, no doubt, upheld by the consoling reflection that their "investment" had been a clear gain to them of five shillings each (the fine). On being released, their six hour's bondage had evidently stiffened them a little, necessitating a little refreshment; one or both, immediately on being released, travelled off as fast as their cramped understandings would allow them, to take a hair of the dog which had bitten them before. *North Hants Telegraph* Jan 16th.

WHAT DID MARY SAY?—A correspondent tells a capital anecdote in illustration of queer occurrences that are sometimes met with in the courts.

During the trial of Cogzell for kidnapping, which took place lately in Hillsborough, an incident took place which created considerable fun at the expense of bigwigs and counsel. A Miss Sloan was testifying, and was requested to state all she knew about a certain transaction.

Witness—"I was in the sitting-room when Mary came from the kitchen hurriedly, and Cogzel after her. He caught hold of her at the sitting-room door and said, 'Mary, you have been here long enough—come and go home now.'"

Attorney for the defendant—"What did Mary say?"

Attorney for the State—"Stop there; I object to the question."

Here a discussion of nearly two hours took place, in which four lawyers participated; after which the judges held a long, serious and exciting discussion on the subject, and finally, in a very formal and pompous manner, stated that it was the opinion of the majority of the court that the question should be answered. The court-room was crowded almost to suffocation, and the most intense interest was manifested at this stage of the proceedings. The question was repeated, "What did Mary say?" and the witness answered:

"She did'nt say a word!"

WHAT IS SUNDAY.—To some one thing, to some another. To the cook it is too often the day of all days in the week when his culinary skill is most diligently put in requisition; her soul, if she is supposed to have any, is ignored—the public prayers of her mistress and family being supposed to cover any forced omission on her part. To the merchant, Sunday is the day for overhauling accumulated business matters, in some quiet corner of his own house, or taking a dose of physic, which he could not spare the time to do on a week day. To the sempstress, Sunday is the day for exchanging her decayed, cobweb-colored raiment, worn for six delving days, for the much-coveted tulip hues; to cheat herself into a brief work-day forgetfulness, and dream of a love lit home, where no harsh word may drive the blood from her cheek, or cause her heart to stand still. To the clerk, Sunday is too often the day for getting rid of the earnings of the past week, and securing a morrow's repentant headache. —*Fanny Fern.*

MRS. PARTINGTON'S LAST.—As Mrs. Partington came in after her long absence, it seemed as if sunshine had entered with her, though there was anxiety on her brow and a bundle in her hand. It was for the "salutary committee," said she. "According to the last century," said she, "how many are there to be grafted in Boston?" looking at us with great earnestness as she spoke. It was the one question we could not answer, not having the last census at hand. Finding herself foiled in this, she continued: "Well, can you tell me if a man is exempted from being grafted who has bellicose veins?" We assured her that we thought not; that the more we had with bellicose veins the better; whereat she was silent. We complimented her on what she was doing for the soldiers. "Yes," said she, "everybody should do something for the cause, however circumcised their means." She took a pinch of snuff as she spoke, and looked down meekly at the bundle tied up in the old Constitution and Guerriere cotton handkerchief. Ike was outside taking care of a boy who was threatening to tear down the recruiting hand-bills on our corner.

"I cannot imagine," said Abraham Holmes, "why my whiskers should turn gray so much sooner than the hairs of my head." "Because you have worked so much more with your jaws than with your brain," observed a friend.

HOLLOWAYS OINTMENT AND PILLS.—The treatment pursued by Professor Holloway for the cure of wounds and ulcers is the most simple and certain in its effects, it has been tried by hundreds of thousands and never been known to fail; by the administration of an internal remedy (the Pills,) he drives disease out, and by the administration of an external remedy (the Ointment), he heals wounds, ulcers, and the worst of external disorders. By this celebrated treatment, also, bad legs and ulcers are cured, even when they have been upwards of twenty years standing.

Victoria Market Report.

VICTORIA, V. I., 13th April, 1863.

A continuance of fine weather during the past ten days has contributed materially to the continuance of the increased activity in business noted in our last. Orders still continue to be sent down freely by the up-river traders, and a brisk trade has been done in all the leading articles, and large quantities have been despatched up river, every boat taking a full load. In case goods, on the contrary, there is little or nothing doing, nor will be until the buyers come down themselves to select their stocks. At auction there have been the usual number of sales, but none of sufficient importance to deserve special notice.

FLOUR—Considerable quantities have been sent up country. Firm at quotations, $6@7.
GRAIN—In full supply, and fair demand at rates quoted.
HAY—Nearly all in hands of one holder, and price firm.
BACON—In good demand at quotations.
COFFEE—In fair demand, but prices have somewhat declined.
RICE—In full supply, and dull of sale. First-class Batavia is selling in mats at 5½c.
WINES AND SPIRITS—The demand is fair and steady for certain descriptions.
SUGARS—Remain without alteration.
PRODUCE—Large stocks on hand and dull sale

ROUTES TO CARIBOO.

Every Person Should Know

THAT THE

Shortest, Best and Cheapest

ROUTE

TO THE

CARIBOO MINES

IS VIA THE

YALE AND LYTTON WAGON ROAD!

The chained distances on the Yale and Lytton Road are as follows:

From Yale to Boston Bar..........25 Miles
" Boston Bar to Lytton..........32½ "
" Lytton to McLean's..........47½ "
" McLean's to the Junction of the Wagon Roads..........19 "

Distance from Yale to Junction. 124 Miles

COMPARE THE ABOVE

With the following distances set down by Lillooet Shippers:

From Douglas to Lillooet..........110 Miles
" Lillooet to Junction..........47 "

Distance from Douglas to Junction..157 Miles

The Junction

Is the point at which the Wagon Roads intersect each other, and where the Cariboo-bound traveller by the Yale-Lytton and Douglas-Lillooet routes MUST meet. It will, therefore, be seen by the above figures that the traveller by YALE and LYTTON has

THIRTY-THREE MILES LESS TRAVEL

Than if he went by the Douglas-Lillooet Route.

☞ **Remember that on this Route there are NO PORTAGES where Goods or Animals may be detained.**

☞ And are also referred to the testimony adduced in the CRANFORD CASE, wherein witnesses have stated upon oath that 15, 20, or even 30 Days is a reasonable time to convey Freight from Douglas to Lillooet.

Five Days only are Required

To carry Goods from Yale to Lytton, and

Shippers are Assured

That if Freight is carried from Douglas to Lillooet for Two Cents per lb.,

CARRIERS ARE PREPARED TO

FREIGHT FROM YALE TO LYTTON

With Safety and Despatch, for

One Cent Per Lb.!

All those who allow themselves to be crammed by Douglasites this year need expect no sympathy from the public if they get broke in trying to get goods through that route.
☞ Remember the Cranford affair, and steer clear of extortion and delays.
Travel the Yale and Lytton Wagon Road to the Cariboo Mines.
☞ New and Commodious Hotels have been erected at convenient distances along the entire length of the Route, where First Class Accommodations for both man and beast are bestowed at moderate rates.

MEDICAL

Dr. Baker's Pain Panacea.

IS composed entirely of healing gums, and vegetable oils and herbs. It is perfectly safe fo the most delicate to use. I can most sincerely say that I have never known any, however delicate to be injured by it in the least. I will continue to ask the afflicted, who have not used it, to try it for the following diseases. If they are not satisfied with its healing properties, the money will be cheerfully refunded by the Agent where the medicine is for sale.

If you have Pain in the Stomach or Bowels, try a dose of Pain Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound, bathe it well with the Pain Panacea four times a day. It will relieve the pain, and take out all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Panacea freely, and take a dose of it internally, morning, noon and night; it will not only cure the pain, but will remove the cause of the disease.

If you have the Dispepsia, and your food distresses your stomach after eating, take a dose o Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat apply the Pain Panacea to the affected parts, an gargle the mouth or throat three or four times a day.

If you have the Diarrhæ, or a relaxed state of the bowels, take a few doses of Pain Panacea and they will soon be restored. If you have a painful swelling bathe the parts freely and you will soon relieve the pain, and the swelling will be reduced If you have a severe toothache, apply the Pain Panacea on a piece of cotton, and bathe the gum at the same time; it will stop the pain instantly

If you have a pain in the Side, Breast, Back, or Kidneys, bathe the parts affected morning and night; at the same time take a dose of the Panacea internally.

If a Mother has a Caked Breast, apply the Pain Panacea as hot as can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

If you have a wound, cut, or galls on your horse, apply the Pain Panacea; it will take out all the inflammation, and heal the sore in a short time. Sold by all the principal druggists, and by

THE WORLD'S FRIEND!

Holloway's Ointment.

A Cure for Piles and Fistulas.

Inflammation of sensitive parts, piles, fistulas, and such like painful diseases may be presently relieved and ultimately cured, by the proper and diligent us of this cooling and healing ointment, whose actio should, in such cases, be assisted by judicious doses of Pills: are many days have elapsed the anxious patient will experience a wonderful degree of ease from this treatment. They are equally suitable to both sexes, and all ages.

Coughs, Colds, and Asthma.

These complaints of the chest come on with alarming frequency. The Ointment should assiduously be rubbed at least twice a day on the chest and between the shoulders, when the violence of all symptoms wil gradually give way, the breathing become longer, and the oppression less. No medicines are more efficient in chest complaints, none can be used with equal safety and certainty. Both Pills and Ointment are accompanied by very clear and simple directions for using them.

A Man who refused to have his Leg off.

"*From the Kilrush Advertiser, June 2nd, 1860.*"

BENJAMIN COX, Esquire, Magistrate, said in the Board Room at Kilrush, that he knew a man who had been in the Infirmary and was actually turned out as incurable, on his way home to Kilrush, he purchased at Ennis, Holloway's Pills and Ointment, for, as he said, it could not be worse with him. This man, said Mr. Cox, became by their use as sound and as healthy as any man in the room. These celebrated Pills and Ointment will cure any wound, sore, or ulcer, however long standing, if properly used according to the printed directions.

Gout and Rheumatism.

The essence of these diseases lie in the blood, which has, floating through each vessel, the pain-giving poison, which irritates and inflames every tissue it comes in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouty diseases. The philosophy of cure consists in overcoming this depravity in the blood, which is rapidly purified by the use of the Pills The Ointment, when rubbed upon the skin, penetrates system through the pores, acts in unison with Pills, and soon effects a cure.

Dropsy, Swollen Legs or Ankles.

The various kinds of dropsies, whether windy or watery, arise from some obstruction to the free circulation though the blood vessels or lymphatics, or depend on the inflamed state of some secreting surface Holloway's remedies, of which the efficacy cannot be exaggerated, act directly upon the blood, the absorbents and secretions, with a power that no dropsy however inveterate, can long resist. They regulate the proper flow of blood to every organ, and purify it likewise,—they filter out everything that is morbid or injurious,—they thoroughly regenerate every function, yet potent as they are for good, they are powerless for evil. They do not contain mercury or any noxious substances. They act safely and certainly.

Bad Legs, Bad Breasts, and Old Ulcers.

This invaluable Ointment was never known to fail in the cure of any wound, any sore, or any ulcer,—as can be proved by innumerable testimonials from persons who had been discharged from Hospitals as incurable, and yet by perseverance they have been made as sound as they were the day they were born, by this incomparable Ointment. For pimples, blotches, scald heads, and scorbutic humours, it is equally efficacious.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Chiego-foot	Fistulas	Sore-throats
Bad Breasts	Chilblains	Gout	Skin-diseases
Burns	Chapped Hands	Glandular	Scurvy
Bunions	Corns (Soft)	Swellings	Sore-heads
Bite of Mosquitoes and	Cancers	Lumbago	Tumours
Sand-Flies	Contracted and Stiff Joints	Piles	Ulcers
Coco-bay	Elephantiasis	Rheumatism	Wounds
Scalds			Yaws
			Sore Nipple

☞ There is a considerable saving by taking the larger sizes.
N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. n18

To the Independent Electors of the City of Victoria.

GENTLEMEN,—YOU WILL SHORTLY BE called upon to exercise the most sacred rights of Britons, in selecting men of your own free will to manage your own local affairs, scrutinize and correct the course of Government, and adjust and impose taxation. While I feel that I have no especial claims to public support, I do claim, in common with my fellow citizens, that I have embarked my capital, brought my family, and expended some portion of my past energies here; and that in a new country like this I have a right to aspire to a position in the mangement of its public affairs. I do not seek any office of emolument—I have never done so, nor is such my aim now. I am content to earn my living independent of Crown patronage; but the honor of representing my fellow citizens is a distinction which any man might be proud of, and I aspire to that. I hold the equal rights of all men to be of the first importance in all cases of legislation, and know no distinction of creed, color, or country. Every colonist who has settled in this Colony as his future home, is entitled to equal privileges with his neighbor, and for such principles I will always contend.

Heaven has given us a fine climate, a good harbor, a natural position as the entrepot to a great part of Washington Territory and British Columbia; and in the present condition of American affairs so situated that with a FREE PORT and NO DEBT of any amount, we can supply a great share of the Pacific coast cheaper than they can possibly be supplied from elsewhere.

I am fully alive to the advantages we possess, and it is my anxious desire to forward our interests, particularly railroad and harbor enterprises; to watch and guard against corruption and misgovernment; to see that equal rights and cheap administration are preserved; that law costs and lawyers are looked after, without permitting to them exclusive privileges or business monopolies; that the merchant, tradesman, mechanic and artizan is protected and supported; land granted free, or at nominal rates to actual settlers, with a view to encourage that important interest; speculators and land jobbers checked and frustrated, and that the all-pervading rule of Government officials, dabbling in mines, town sites and public lands, may be abolished.

There are many other public questions of great importance upon which I will speak hereafter, as they cannot be referred to within the limits of this address, but if you see fit to honor me with your confidence and support, you may rely that for neither inducements of office or patronage, no printing or other jobs will pass without exposure. And should it not be your pleasure to elect me, I will support cheerfully whomsoever you think fit to elect, so long as they follow a line of policy similar to that I have here laid down.

I have the honor to be Gentlemen,
Your obedient servant,
EDWARD BEATTY EARLES.

COUGHS, ASTHMA, AND INCIPIENT CONSUMPTION ARE EFFECTUALLY CURED BY

KEATING'S COUGH LOZENGES.

JUDGED BY THE IMMENSE DEMAND, this Universal Remedy now stands the first in public favor and confidence; this result has been acquired by the test of fifty years' experience. These Lozenges may be found on sale in every British Colony, and throughout India and China they have been highly esteemed wherever introduced. For COUGHS, ASTHMA, and all affections of the Throat and Chest, they are the most agreeable and efficacious remedy.

IMPORTANT TESTIMONIAL,

Copy of a letter from the late COLONEL HAWKER, (the well-known Author on "Lungs and Shooting.")

LONGPARISH HOUSE, near Whitchurch, Hants

SIR:—I cannot resist informing you of the extraordinary effect I have experienced by taking only a few of your LOZENGES. I had a cough for several weeks that defied all that had been prescribed for me; and yet I got completely rid of it by taking about half a small box of your Lozenges, which I find are the only ones that relieve the cough without deranging the stomach or digestive organs,

I am sir, your humble servant,

HEALTH FOR A SHILLING.

Holloway's Pills.

Headaches, Bile, Loss of Appetite, and Lowness of Spirits.

These Pills require no interruption of business or pleasure; they act mildly on the bowels, strengthen the stomach, and promote a healthy action of the liver, whereby they purify the blood, cleanse the skin, brace the nerves, and invigorate the whole system. They effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite, correct indigestion, remove bile, giddiness, headaches, and palpitation of the heart.

Weakness and Debility.

of debility, languor, and nervousness generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease; re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigor. They increase the appetite, while they secure perfect digestion to all ordinary food, and release the invalid from restraint in diet.

A Word to Females.

There are two periods, especially in Woman's life, which require for safe passage, judgment and attention. Irregularity is apt at those critical times to take place, and to lay the foundation of future disease. These Pills, safe in action, and effective in result, should be taken at certain periods, and the issue will be marvellous both to the young and the middle aged. They prevent nervousness, hysterics, dropsy, and a host of similar serious disorders, by expelling all impurities from the system, therefore none should ever be without them.

Coughs, Colds, and Asthmas,

No medicine will cure colds so quickly as these Pills, when of long duration or settled on the chest, or even though it has assumed the first stage of asthma, they may be relied on as a certain and never failing cure, particularly if the Ointment be well rubbed into the chest and throat night and morning. If this catch the eye of any asthmatical person so bad as even not able to lie down in bed, let him well use these two preparations for only a week, and the result will be marvellous.

Blood to the Head—Diseases of the Heart

More persons die suddenly from diseases of the heart than the unlearned suppose: in such complaints, the bowels should always be kept well open, as also where there is a tendency of blood to the head. These celebrated Pills purify the blood in an extraordinary manner, and should be taken in copious doses when such symptoms occur, taking care not to overload the stomach; by this means a danger is quickly averted.

Children's Complaints.

It is not generally known, but such is the fact, that children require medicine oftener than their parents. Three-fourths of the children die before they attain the age of eight years. Let mothers, then, be wise and give to their children small doses of these invaluable Pills once or twice every week, in such quantity as may act gently upon the system twice in the twenty-four hours. For infants, a Pill may be crushed and given as a powder in a little water. The gross humors that are constantly floating about in the blood of children, the forerunners of so many complaints, will thus be expelled, and the lives of thousands saved and preserved to their parents.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Dropsy	Inflammation	Sore Throats
Asthma	Dysentery	Jaundice	Stone and Gravel
Billious Complaints	Erysipelas	Liver Complaints	Secondary Symptoms
Blotches on the Skin	Female Irregularities	Lumbago	Tic-Douloureux
Bowel Complaints	Fevers of all kinds	Piles	Tumours
Colics	Fits	Rheumatism	Ulcers
Constipation of Bowels	Gout	Retention of Urine	Venereal Affections
Consumption	Head-ache	Scrofula, or King's Evil	Weakness, from whatever cause
Debility	Indigestion		
	Worms of all kinds		

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box. nl4

JAYNE'S EXPECTORANT

Thirty years of experience has demonstrated beyond the shadow of a doubt, that JAYNE'S EXPECTORANT excels every other remedy for the cure of

ASTHMA,
BRONCHITIS,
CONSUMPTION,
COUGHS AND COLDS,
CROUP AND WHOOPING COUGH,
SPITTING OF BLOOD,
AND ALL PULMONARY COMPLAINTS.

While many other Remedies have been lauded and extolled, and achieved a temporary reputation, JAYNE'S EXPECTORANT has continually increased in popularity until now there is scarcely an inhabitable part of the globe where it is not used and highly appreciated. The following are a few of the many Certificates received:

Rev. VALENTINE GRAY, of the Methodist Church, write from Centerville, Pa.:

Having experienced the beneficial effects of your Family Medicines, I would give it as my opinion that they are the very best I ever had occasion to use, and most cheerfully recommend them to the afflicted. Your EXPECTORANT especially I have found to be a sure cure for COUGHS and COLDS.

Dr. W. W. WINTER, of Milledgeville, Ill., writes:

It is with great pleasure that I can recommend your EXPECTORANT to those suffering from Bronchial Affections, having used it with the most satisfactory results.

Mr. NATHAN PENNYPACKER, of Upper Uwchland, Chester county, Pa., says:

Having been afflicted with ASTHMA and BRONCHITIS, and the treatment of several skillful physicians proving of no avail, I commenced the use of your EXPECTORANT. After taking it for about three months I found myself entirely cured.

Rev. JOHN DOWLING, D. D., Pastor of the Berean Baptist Church, N. Y., writes:

I have long known the virtues of your EXPECTORANT, and frequently tested them on myself and family, when afflicted with COUGHS or COLDS. I believe it to be one of the best remedies ever discovered for these maladies.

Mr. READING DOTY, of Twenty Mile Stand, Warren county, Ohio, says:

Recently I had an attack of ASTHMA, the most distressing of all diseases, and yesterday afternoon, after taking a short ride, I returned home almost unable to breathe. Through the persuasion of my wife I was led to try your EXPECTORANT. The first dose gave instant relief, and after the fourth dose I enjoyed a refreshing sleep, and the next morning arose in better health than for two years past.

Rev. J. J. WALSH, Missionary of the Presb. Board at Futtegurh, Northern India, says:

Your EXPECTORANT was the means under Providence of curing a case of INCIPIENT CONSUMPTION, which had been pronounced incurable by competent medical men.

MAURICE SCHWARZ, of Concord, Wis., says:

When the WHOOPING COUGH prevailed to some extent at our place, the disease seemed to baffle our physicians. In various cases the EXPECTORANT was used, and it did not fail to cure.

JOHN NARRIMAN, Esq., of Stewartstown, N. H., writes:

Not long since, a child of mine had a very violent and distressing attack of CROUP, which must have proved fatal had not immediate relief been obtained. I commenced giving your EXPECTORANT, and within three-quarters of an hour the child had taken six teaspoonsful, breathed with perfect ease, a cure within that time having been effected.

Rev. RUFUS BABCOCK, D. D., formerly President of Waterville College, Maine, writes:

For more than a dozen years I have recommended Dr. D. JAYNE'S FAMILY MEDICINES, and especially the EXPECTORANT. I know that these medicines are highly esteemed and frequently prescribed by some of the most respectable of the regular practitioners of medicine; and I do not hesitate to commend them as a valuable addition to our *materia medica*, and a safe as well as eminently beneficial remedy for the diseased.

DAVID TURNER, of Cassville, Huntington county, Penn., writes:

My son, aged nineteen years, was confined to his bed for three months, his disease being pronounced by the attending physician to be CONSUMPTION. Failing to obtain any relief from the treatment he had been undergoing, I procured for him JAYNE'S EXPECTORANT, and through its use he has been entirely restored to health.

Mr. JOAN HENRY, of Burlington, Bradford county, Pennsylvania, says:

For two years, my son was afflicted with a disease resembling CONSUMPTION, and during this period was unable to labor. Being finally induced to try your EXPECTORANT, he was completely cured after taking ten bottles, and he is now able to work every day.

Mr. PRESTON EWING, Laconte, Harrison county, Indiana, writes:

Being afflicted with BRONCHITIS for the space of three years, to such an extent that I was obliged to relinquish the teaching of Vocal Music, and failing to obtain any relief from the physicians whom I consulted, I gave the EXPECTORANT a trial. After using it for a few weeks I was very much relieved; and by its continued use my throat is now entirely clear of any disease.

☞ This EXPECTORANT, and all of DR. D. JAYNE'S FAMILY MEDICINES, are sold by LANGLEY BROS. and CURTIS & MOORE, Victoria, from whom may also be obtained *gratis, Jayne's Medical Almanac and Guide to Health.*
